

The next level of collaboration using Skype for Business

SMART Room System™

The world's #1 selling Skype Room System now supports inking over any application and offers even more sizes.

Interactive Sharing

No other Skype Room System allows you to ink on any industry application, not just Microsoft® Office.

Six Sizes

The SMART Room System offers more size configurations than any other system in the market.

Seamless Integration

The SMART Room System is the only Skype Room System that is manufactured and supported by one vendor.

The next level of collaboration using Skype for Business

The SMART Room System includes*:

SMART Board interactive displays with appliance PC

Camera

Two tabletop microphones

Administrative console

Integrated speakers

Wall mount

*Additional microphones and a wall stand are available separately

The features that separate SMART from the competition:

Interactive Display

The commercial-grade, HD/LCD display enables an unrivalled touch experience.

Enhanced Audio

Up to 5 tabletop microphones can be connected, ensuring effective coverage and integrated speakers offer high quality sound.

Panoramic Video

The HD camera has a 109 degree field of view that displays the entire room and adapts to any lighting condition.

Immediate Startup

Equipped with Proximity Detection, the display turns on when you walk into the room and meetings are loaded by pressing a button.

Interactive Sharing

Enable dual touch and inking capabilities onto any application by plugging in a laptop and conducting a desktop share. Access the revolutionary Unbound Workspace, which lets you pan and zoom to any level of detail, whatever the detail and complexity of the content.

Administrative Console

With its 11.6" display, the console has large touch points, which makes controlling the overall meeting easier without the need for a remote control.

Premium Services

Implementation and adoption consulting services ensure your SMART Room System is installed properly and is used effectively. Its reporting options give you detailed insight into system usage.
